

# KleenCoat™ Non-Stick Sanitary Coating

Reduce snack seasoning build-up problems and unexpected downtime for cleaning weighers and vibratory conveyors

KleenCoat is available for new replacement parts

Harder than steel and FDA compliant, KleenCoat enhances stainless steel contact surfaces with a non-stick finish that reduces sanitation and maintenance costs.

**KleenCoat is only available on new equipment from Heat and Control, including:**

- Ishida multihead weighers
- Vibratory conveyors and feeders
- Container fillers
- New replacement product contact parts

**KleenCoat Advantages:**

- Proven to reduce seasoning accumulation in snack food applications
- Cleaner operation between sanitation
- Protects against bacterial and fungal contamination
- Non-stick, low friction, and hydrophobic qualities reduce cleaning labor
- FDA 21CFR 750.300 and EFSA compliant
