

Inspection-Trim Conveyors

Gently tumble potatoes, fruits and vegetables for inspection and defect removal.

Rollers or belt

PVC rollers gently turn product at a constant speed, allowing inspectors to view all sides. PVC or stainless steel belt is also available.

Rugged construction

Stainless steel frame includes a full length drip pan and discharge chute to reduce spillage.

Optional accessories

- Full length dividers for sorting or defect removal.
- Independent trim removal conveyor.
- Movable plastic cutting boards.
- Special conveyor sizes to suit your equipment layout.

Keep your inspection area neat with the optional trim removal conveyor system.

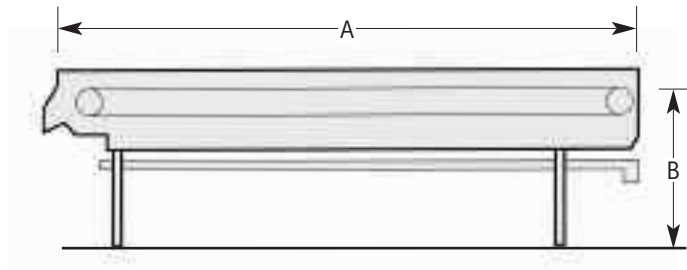

Inspection-Trim Conveyors

Model ITT

Choose the conveyor size and configuration that best fits your inspection process.

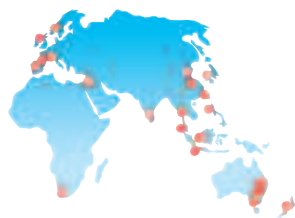

Inspection conveyors can be ordered with single or double lanes, movable cutting boards, and trim removal conveyors.
